CAREER SUMMARY

As a passionate Front-End Developer, I specialize in creating responsive, user-friendly web applications with HTML, CSS, and JavaScript. I have a keen eye for design and functionality, ensuring seamless user experiences across devices and browsers.

With strong problem-solving skills and attention to detail, I collaborate with designers and back-end developers to deliver high-performance, accessible, and visually appealing applications. I stay updated with the latest web technologies and best practices, constantly refining my skills to build efficient and scalable front-end solutions.
